## PROFILE

Creative problem solver seeking frontend, or full-stack, developer position at an innovative and diverse company. I am a team-oriented self-starter that knows how to get the best out of others and discovers the most effective role to play in order to plan, outline, and achieve a common goal.

## SKILLS/LANGUAGES/LIBRARIES/TOOLS

HTML ■ CSS ■ JS/ES6 ■ React ■ NodeJS ■ Express ■ MongoDB ■ Redux ■ Bootstrap  
■ GitHub ■ Material ■ Developer Tools ■ TDD/BDD ■ Agile ■ ZenDesk/Salesforce ■ Postman ■  
VSCode ■ Photoshop/Pixelmator ■ JIRA/Azure/Pivotal Tracker ■ Google Analytics

## RELEVANT EXPERIENCE

### TEAM LEAD, MINDBODY INC – 2016-PRESENT

- Provide technical assistance/troubleshooting for developer issues internally and externally.
- Manage team - promote professional growth and development while maintaining KPIs.
- Consult enterprise customers on integration and conversion tracking techniques.
- Facilitate transition from acquisition by developing processes, assigning roles, and reviews.
- Compiled, produced, and edited training/instructional videos using Final Cut Pro and Photoshop

### OB/SUPPORT TECH-MANAGER-DIRECTOR, HEALCODE LLC – 2014-2016

- Hired/built support team - set KPIs and SLAs - revamped processes/tools - set quarterly goals.
- Designed widgets based on customer's current website using CSS and developer tools.
- Integrated widgets on behalf of customer into various CMS (WordPress, Squarespace, etc...)
- Worked with product/development to create bug reporting and release QA-ing procedure.
- Advocated for customer base - translated needs/wants into user stories for feature updates.
- In depth troubleshooting and process creation for Google Analytics (wrote specs for dev).
- Assisted escalated customer. ■ Harbored team member growth. ■ Attended conferences.
